State Math Standards

Grade 1 Math Standards

Domain	Standards Summary	Key Skills/Concepts	Standard References
Operations and Algebraic Thinking	• Solve addition/subtraction word problems within 20 • Apply properties of operations • Add/subtract within 20 with fluency within 10 • Understand meaning of equal sign	Addition/subtraction strategies, properties of operations, equations	1.OA.1, 1.OA.2, 1.OA.3, 1.OA.4, 1.OA.5, 1.OA.6, 1.OA.7, 1.OA.8
Number and Operations in Base Ten	• Count to 120 • Understand place value (tens and ones) • Compare two-digit numbers • Add within 100, subtract multiples of 10	Place value understanding, two-digit number concepts, mental math	1.NBT.1, 1.NBT.2, 1.NBT.3, 1.NBT.4, 1.NBT.5, 1.NBT.6
Measurement and Data	• Order and compare lengths • Measure with length units • Tell time (hours and half-hours) • Organize and interpret data	Indirect measurement, length units, time, data analysis	1.MD.1, 1.MD.2, 1.MD.3, 1.MD.4
Geometry	• Distinguish defining vs. non-defining attributes • Compose 2D and 3D shapes • Partition shapes into equal shares	Shape attributes, composing shapes, equal shares (halves, fourths)	1.G.1, 1.G.2, 1.G.3

Grade 2 Math Standards

Domain	Standards Summary	Key Skills/Concepts	Standard References
Operations and Algebraic Thinking	• Solve addition/subtraction word problems within 100 • Fluently add/subtract within 20 • Work with equal groups (multiplication foundations) • Determine odd/even numbers	Two-step problems, mental strategies, rectangular arrays, even/odd concepts	2.OA.1, 2.OA.2, 2.OA.3, 2.OA.4
Number and Operations in Base Ten	• Understand place value to 1000 • Count by 2s, 5s, 10s, 100s (CA addition) • Compare three-digit numbers • Add/subtract within 1000 • Use estimation strategies (CA addition)	Place value concepts, skip counting, comparison, multi-digit operations, estimation	2.NBT.1, 2.NBT.2, 2.NBT.3, 2.NBT.4, 2.NBT.5, 2.NBT.6, 2.NBT.7, 2.NBT.7.1, 2.NBT.8, 2.NBT.9
Measurement and Data	• Measure with standard units • Relate addition/subtraction to length • Tell time to nearest 5 minutes with a.m./p.m. (CA addition) • Work with money • Represent and interpret data	Standard measurement tools, number line, time concepts, money problems, graphs	2.MD.1, 2.MD.2, 2.MD.3, 2.MD.4, 2.MD.5, 2.MD.6, 2.MD.7, 2.MD.8, 2.MD.9, 2.MD.10
Geometry	• Recognize shapes with specified attributes • Partition rectangles into squares • Partition shapes into equal shares	Shape identification, equal partitioning, fraction vocabulary	2.G.1, 2.G.2, 2.G.3

Grade 3 Math Standards

Domain	Standards Summary	Key Skills/Concepts	Standard References
Operations and Algebraic Thinking	• Interpret products and quotients • Multiply/divide within 100 • Apply properties of operations • Solve two-step word problems • Identify arithmetic patterns	Multiplication/division concepts, fact fluency, properties, problem-solving, patterns	3.OA.1, 3.OA.2, 3.OA.3, 3.OA.4, 3.OA.5, 3.OA.6, 3.OA.7, 3.OA.8, 3.OA.9
Number and Operations in Base Ten	• Round to nearest 10 or 100 • Fluently add/subtract within 1000 • Multiply 1-digit by multiples of 10	Rounding, computational fluency, place value multiplication	3.NBT.1, 3.NBT.2, 3.NBT.3
Number and Operations—Fractions	• Understand fractions as numbers • Represent fractions on number line • Explain fraction equivalence • Compare fractions	Unit fractions, number line representation, equivalent fractions, comparison	3.NF.1, 3.NF.2, 3.NF.3
Measurement and Data	• Tell time to nearest minute • Measure liquid volumes and masses (grams, kg, liters) • Solve problems with scaled graphs • Understand area and perimeter concepts	Time intervals, metric measurement, data analysis, geometric measurement	3.MD.1, 3.MD.2, 3.MD.3, 3.MD.4, 3.MD.5, 3.MD.6, 3.MD.7, 3.MD.8
Geometry	• Classify shapes by attributes • Partition shapes into equal areas expressed as unit fractions	Quadrilaterals, shape classification, area fractions	3.G.1, 3.G.2

Grade 4 Math Standards

Domain	Standards Summary	Key Skills/Concepts	Standard References
Operations and Algebraic Thinking	• Interpret multiplication as comparison • Solve multi-step word problems • Find factor pairs and identify prime/composite • Generate and analyze patterns	Multiplicative comparison, multi-step problems, factors/multiples, pattern analysis	4.OA.1, 4.OA.2, 4.OA.3, 4.OA.4, 4.OA.5
Number and Operations in Base Ten	• Understand place value to 1,000,000 • Read/write multi-digit numbers • Round to any place • Fluently add/subtract multi-digit numbers • Multiply up to 4-digit by 1-digit numbers	Multi-digit place value, standard algorithms, multiplication strategies	4.NBT.1, 4.NBT.2, 4.NBT.3, 4.NBT.4, 4.NBT.5, 4.NBT.6
Number and Operations—Fractions	• Explain fraction equivalence • Compare fractions with different denominators • Add/subtract fractions with like denominators • Multiply fractions by whole numbers • Understand decimal notation	Equivalent fractions, fraction operations, decimals to hundredths	4.NF.1, 4.NF.2, 4.NF.3, 4.NF.4, 4.NF.5, 4.NF.6, 4.NF.7
Measurement and Data	• Convert measurements within one system • Solve problems with measurements • Apply area and perimeter formulas • Make line plots with fractions • Understand angle concepts and measurement	Unit conversion, measurement problems, area/perimeter, data with fractions, angle measurement	4.MD.1, 4.MD.2, 4.MD.3, 4.MD.4, 4.MD.5, 4.MD.6, 4.MD.7
Geometry	• Draw and identify lines and angles • Classify shapes by line and angle properties • Identify lines of symmetry	Points, lines, angles, shape classification, symmetry	4.G.1, 4.G.2, 4.G.3

Grade 5 Math Standards

Domain	Standards Summary	Key Skills/Concepts	Standard References
Operations and Algebraic Thinking	• Write and interpret numerical expressions • Express whole numbers as products of prime factors (CA addition) • Analyze patterns and relationships	Parentheses/brackets, prime factorization, coordinate graphing of patterns	5.OA.1, 5.OA.2, 5.OA.2.1, 5.OA.3
Number and Operations in Base Ten	• Understand place value to thousandths • Round decimals to any place • Multiply multi-digit whole numbers • Divide with 2-digit divisors • Perform operations with decimals to hundredths	Decimal place value, standard algorithms, decimal operations	5.NBT.1, 5.NBT.2, 5.NBT.3, 5.NBT.4, 5.NBT.5, 5.NBT.6, 5.NBT.7
Number and Operations—Fractions	• Add/subtract fractions with unlike denominators • Interpret fractions as division • Multiply fractions and whole numbers • Interpret multiplication as scaling • Divide unit fractions and whole numbers	Unlike denominators, fraction as division, fraction multiplication, scaling concepts, fraction division	5.NF.1, 5.NF.2, 5.NF.3, 5.NF.4, 5.NF.5, 5.NF.6, 5.NF.7
Measurement and Data	• Convert measurements within given systems • Make line plots with fractions • Understand volume concepts • Apply volume formulas	Unit conversion, data with fractions, cubic units, volume formulas	5.MD.1, 5.MD.2, 5.MD.3, 5.MD.4, 5.MD.5
Geometry	• Graph points on coordinate plane • Classify 2D figures into categories based on properties	Coordinate system, shape hierarchy and classification	5.G.1, 5.G.2, 5.G.3, 5.G.4
